

Flammable Self Closing Storage Cabinet 30 Gallon Capacity Red

MODEL FLSC-30-SC-RD

Storage Solutions / Flammable Safety Cabinets

PRODUCT OVERVIEW

Keeping dangerous items safe is always a priority. Built to help with that safety is the flammable storage cabinet. A fully welded, double wall steel construction has the durability and strength that many standard cabinets just don't have. One of the best examples of the tremendous care that goes into each and every cabinet is the grounding aid. Each cabinet is equipped with an electrical ground to eliminate any electrostatic discharge. Another often over looked feature is the two inch leak proof base. This base neatly corrals any material or substances that may have escaped their original containers. Each cabinet comes assembled and prepared to keep you and your workplace safe!

KEY FEATURES

- Recessed, lockable latch
- Bunged air vents
- Self-closing door
- FM approved
